DOB: 11-03-2004

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience in developing responsive and scalable web applications using **HTML, CSS, JavaScript, React.js (Frontend)** and **Node.js, Express.js, MongoDB (Backend)**, along with **RESTful APIs**. Proficient in building modern, user-friendly interfaces using **Tailwind CSS and Bootstrap**, and maintaining clean, version-controlled code with **GitHub**. Experienced in working across **Linux and Windows environments**, with a understanding of **core Java and Python**, and a keen eye for UI/UX design using **Figma and Canva**, including foundational experience in **Blender for 3D models**. Highly motivated to learn new technologies, grow through problem-solving, refine skills by learning from mistakes, and deliver efficient, high-quality solutions that contribute to organizational success.

PROFESSIONAL SKILLS AND PERSONAL ABILITIES

TECHNICAL SKILLS

- Html, Css & Javascript
 - React.Js
 - Node.Js & Express.Js
 - Restfull Api
 - Mongoddb (Database)
 - Figma & Canva (Design)
 - Java & Python (Core)
 - Blender (3d Models)
 - Sql (Basic Handling)
- Experienced in **Linux (Ubuntu, Kali) and Windows OS, CPU assembly and system configuration, Microsoft Office, professional email handling, and internet/network troubleshooting..**

SOFT SKILLS

- Creativity
- Adaptivity
- Time Mangement
- Team Work
- Self-Confidence/Positive
- Problem Solving
- Communication

ACADEMIC QUALIFICATION

- Completed B.Tech. Achariya College of Engineering and Technology, Puducherry in 2025.
- Completed +2 from Achariya (Sri Sampurna Vidyalayam), Puducherry in 2021.
- Completed 10th from Ideal High School , Puducherry in 2019

PROFESSIONAL EXPERIENCE

- Worked as Development– VY System from April 2024 – Novembar 2024
- Worked as Web Developer - Freelance Website Project in SkillMate from July 2023 – January 2024

PROJECT EXPERIENCE

1. Project : **Tech Savvy**

Duration : May 2023 – July 2023

Website : [Tech Savvy](#)

Role : Design and Development (Lead)

Responsibilities :

- Developed an **interactive web application** using **React.js** to showcase technology products with a modern and engaging user interface.
- Implemented **3D product visualization** using **Three.js**, enhancing user interaction and improving product understanding.
- Created and optimized **3D models using Blender**, exporting and integrating them seamlessly into the web application.
- Designed a **responsive and visually appealing UI**, ensuring consistent user experience across desktop, tablet, and mobile devices.
- Integrated **dynamic React components** for smooth navigation, efficient content rendering, and improved application performance.
- Focused on **performance optimization, cross-browser compatibility, and responsive design best practices**.
- Collaborated with team members during development, gaining hands-on experience in **React-based development, 3D integration, and teamwork**.

Tools Taught : React.js, Three.js (core 3D engine), Vite , Blender, Framer Motion

2. Project : **E-commerce + CRM**

Duration : January 2024 – March 2024

Role : Frontend Development and Handle Database Process

Responsibilities :

- Developed the **frontend architecture** of a full-stack **E-commerce and CRM web application** using **React.js**, ensuring a responsive, intuitive, and user-friendly interface.
- Designed and implemented **customer, order, and inventory management modules**, enabling efficient data handling and seamless user workflows.
- Built **admin-level dashboards** for product management, order monitoring, and customer interaction tracking, focusing on usability and clarity.
- Integrated the frontend with backend services through **RESTful APIs** developed using **Node.js and Express**, ensuring secure and efficient data exchange.
- Handled **database operations using MongoDB**, including data modeling, CRUD operations, and maintaining data consistency across the application.
- Collaborated with backend logic and **Python modules** for analytics and reporting features, supporting CRM insights and data-driven decision-making.
- Gained strong hands-on experience in **full-stack system architecture**, frontend–database integration, performance optimization, and collaborative development practices.

Tools Taught : React.js,Node.js,Express.js,RESTfull APi, MongoDB, Python for Modules
