Portfolio

## Summary

Web Developer with knowledge in designing and developing responsive websites. Skilled in HTML, CSS, and JavaScript with a passion for creating clean, user-friendly, and visually appealing web pages. Eager to contribute to organizational growth by developing efficient and modern web solutions

## Software and Programming Exposure

- React JS
- HTML, CSS & JavaScript
- Node JS & Express JS
- Rest API
- MongoDB
- Git (Software)
- Java (Core)
- Git & GitHub, Postman (Tools)
- SQL (basics)

## Project Experience

### Team Projects
- Trackz Web App
- E-commerce + CRM Web App
- Tech Savvy Museum Web App

### Trackz (Web App)
Duration: 4 Weeks | Team Size: 2 Members

- A full-stack web application using React.js (frontend), Node.js (backend), MongoDB (database)
- Monitors and analyzes parking density using CCTV-based data (conceptual)
- Developed a user-friendly interface inspired by BookMyShow for real-time parking status
- Implemented REST APIs for secure frontend-backend communication
- Managed parking data efficiently with MongoDB schema design
- Gained practical experience in full-stack development, system design, and data management

### E-commerce + CRM (Web App)
Duration: 10 Weeks | Team Size: 4 Members

- Developed a full-stack E-commerce and CRM web application using React.js, Node.js (Express Gateways), and Python modules
- Designed and implemented customer, order, and inventory management features
- Built admin-level user dashboards for managing products and customer interactions
- Created RESTful APIs for secure and efficient frontend-backend communication
- Integrated CRM functionalities including customer tracking, analytics, and reporting
- Enhanced understanding of full-stack development, system architecture, and team collaboration

### Tech Savvy (Web App)
Duration: 10 Weeks | Team Size: 4 Members

- Implemented an interactive web application using React.js to showcase technology products
- Implemented 3D product models for enhanced user interaction and visualization
- Designed a modern, responsive UI to improve user experience and engagement
- Integrated dynamic components for smooth navigation and content rendering
- Focused on performance optimization and cross-device compatibility
- Gained hands-on experience in React-based development, 3D integration, and team collaboration

## Individual Projects

- Hot Pizza Web App
- ShopZone Web App
- Portfolio Web App

### Hot Pizza (Web App)
Duration: 1 Weeks

- Designed and developed a responsive restaurant website using HTML, CSS, and JavaScript
- Created an interactive UI for showcasing pizza menus, offers, and restaurant details
- Implemented client-side functionality using JavaScript for smooth user interaction
- Ensured cross-browser compatibility and mobile-friendly design
- Focused on clean layout, usability, and website performance optimization
- Strengthened fundamentals of frontend web development

### ShopZone (Web App)
Duration: 1 Weeks

- Developed a full-stack e-commerce web application with HTML, CSS, and JavaScript for the frontend
- Built the backend using Node.js and Express.js to handle business logic and APIs
- Integrated MongoDB for managing products, users, and order data
- Implemented core e-commerce features such as product listing and cart management
- Created RESTful APIs for smooth frontend-backend communication
- Improved skills in full-stack development, database integration, and API design

### Portfolio (Web App)
Duration: 2 Weeks

- Built a responsive personal portfolio website using HTML, CSS, Bootstrap, and JavaScript
- Showcased projects, skills, and contact details with a clean, professional layout
- Implemented responsive design for mobile and desktop using Bootstrap
- Added interactive features with JavaScript to improve user experience

## Academic Background

### Bachelor of Technology in Computer Science (CSE) - 7.50 (First Class)
Achariya College of Engineering Technology, Puducherry
2021-2025

### Higher Secondary Certificate Examination - 72%
Achariya Siksha Mandir , Puducherry
2020 – 2021

### Certifications from Linkedin Learning

- Frontend Development (Html, CSS , JavaScript & React JS)
- Back-end Development ( Node JS & Express JS , Rest API)
- DataBase Development (MY SQL & MongoDB)
